

# Industry Structure

Province	Large (>120Mt per day)	Medium(120 > - 80 Mt per day)	Small (<80 Mt per day)	Hammer millers
National	6	14	53	>7000

# Sate of Fortification In The Country

- Currently voluntary
- Mandatory regulations to be gazzeted early October 2016
- Nutrient deficiency declining but prevalent
- Low presence of fortification machinery supplies and fortificants
- Government machinery ready.

# Challenges to Implement Maize Fortification

- Need for public awareness.
- Additional costs to industry.
- Drought mitigation efforts to slow down fortification policing.
- Help required for small scale millers.
